

Part D Pro™

Build, Submit and Report in Compliance with Medicare Part D

Simplify Compliance Regardless of Changing Rules

As the Medicare Part D prescription benefit plan evolves, new requirements are introduced and existing rules are changing. Trying to stay on top of each plan year's changes and adjust formularies to maintain compliance is a challenge. You can choose to take on that challenge yourself or you can rely upon Zynchros. Zynchros' Part D Pro™ is purpose built for the creation, maintenance and submission of formularies for the Centers for Medicare and Medicaid Services (CMS) Medicare Part D prescription drug benefit program.

All of the regulatory reporting requirements, validation rules and file formats are engineered into Part D Pro for you. We supply regular updates that keep pace with CMS, and services that ensure you and your staff have everything you need to meet reporting and submission deadlines.

Create, Compare and Submit

We provide you with the current CMS Formulary Reference File (NDC Proxy List) augmented with the appropriate USP classifications. As CMS makes changes we maintain the list so you can be sure that when you are building or updating a formulary you are using accurate drug information. Part D Pro allows you to manage both proxy and non-proxy drugs within the same formulary file, making the inclusion of enhancement items a snap. Enhancement items are not included in the CMS submission files to meet regulatory reporting requirements.

Formulary Validation and Comparison Tools

The Formulary Validation Tool checks ten different areas of your formulary to ensure accuracy and

consistency prior to uploading your HMPS file to CMS.

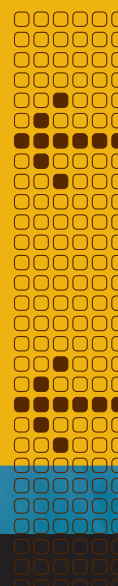

These areas include:

- Classification
- Formulary Key Drug Types
- Classes of Clinical Concern (All or Substantially All)
- Quantity Limit
- Prior Authorization Group
- Step Therapy
- Tier
- Tier Consistency
- NDC
- Unsupported Restrictions

NDCs With Changes Since Last Submission
 Each set of two rows represents a single changed item.
 Line 1: HMPS Submission File: Jan 2 2008
 Line 2: Current Zynchros formulary
 The settings which have changed are highlighted in yellow.

NDC	Tier	Drug Type	Quantity Limit	Quantity Limit Amount	Quantity Limit Days	PA	Prior Authorization Group	Specialty Pharmacy	Therapeutic Category	Therapeutic Class	Step Therapy	Step Therapy Details
0002182081 CELBREX CAPS 100MG	3	5 Preferred Brand	1	60	30	0		0	Anti-inflammatory Agents	Nonsteroidal Anti-inflammatory Drugs	1	Total 1 NSAID COX-2 3
0002182081 CELBREX CAPS 100MG	3	5 Preferred Brand	1	60	30	0		0	Anti-inflammatory Agents	Nonsteroidal Anti-inflammatory Drugs	1	Total 1 NSAID COX-2 2
0002182081 CELBREX CAPS 200MG	3	5 Preferred Brand	1	60	30	0		0	Anti-inflammatory Agents	Nonsteroidal Anti-inflammatory Drugs	1	Total 1 NSAID COX-2 3
0002182081 CELBREX CAPS 200MG	3	5 Preferred Brand	1	60	30	0		0	Anti-inflammatory Agents	Nonsteroidal Anti-inflammatory Drugs	1	Total 1 NSAID COX-2 2

The Formulary Comparison Tool allows you to compare new submissions to your previous submission file and highlights every change so you can review every change to eliminate unintended/unauthorized changes.

Submit the Right File to the Right Place

When you are ready to submit your formulary to CMS for approval, Zynchros Part D Pro will generate your HPMS formulary file for proxy items easily and accurately. You can also use Part D Pro to fulfill the Medicare Part D requirement for the Destination Rx Plan & Price Finder online application. A simple export can be generated and submitted via upload directly to CMS, your claims processor or PBM.

Part D Pro automates the creation of formulary documents for your members to comply with CMS guidelines. You can export formulary data organized by therapeutic class to create abridged or comprehensive formularies in Microsoft Word or PDF file formats complete with index for print and electronic distribution.

Lessen the Burden of Delivering Part D Benefits

Zynchros' Part D Pro automates the formulary creation, maintenance, submission, and distribution steps while ensuring that your plan is compliant with CMS regulations. Zynchros' software and pharmacy professionals stay on

top of new and changing requirements to simplify your formulary processes, saving you time and money in the administration of your Part D prescription drug benefit plan.

Zynchros Professional Services

If you are trying to share formulary data with a vendor or create reports for your internal partners, you can rely upon the Zynchros professional services group to meet your needs.
