Meet Regulatory Requirements and Communicate Benefits in Style

"Section 423.128 of the Final Rule requires Part D plans to provide a list of drugs included on the Part D plans' formulary to enrollees upon enrollment and at least annually thereafter..."

Section 423.4 defines "formulary" as "the entire list of Part D drugs covered by a Part D plan." These provisions together require Part D plans to provide a comprehensive written formulary to any potential or current enrollee upon his or her request."

Zero Labor, Guaranteed Compliance and Looking Good

The Enhanced Member Formulary Service for Medicare Part D from Zynchros is specifically designed to ensure that Part D plan providers can easily and cost effectively meet the post-enrollment formulary requirements as outlined in the CMS Medicare Marketing Guidelines.

Zynchros can ensure that every time and every place you deliver your Part D plan formulary it is accurate and complies not only with the CMS Medicare Marketing Guidelines but will also meet your company's marketing and legal requirements.

- Data compiled directly from your submitted and approved HPMS file
- Formulary tables reflect your preferred classification system including proprietary therapeutic classifications
- Enhanced drug listings with name, strengths and utilization management display preferences
- CMS mandated elements including your CMS approved preamble and custom index including all the required styles and formatting
- Reports incorporate your corporate logo and other artwork, customized header and footer information, introductory/disclaimer copy and front and back cover information
- Reports delivered to meet your print and electronic publishing schedules and specifications

Listings and Index can be Customized for your Corporate Palette and Display Preferences

About Zynchros, Inc.

Founded in 2000, privately-held Zynchros serves Health Insurers, Pharmacy Benefit Managers (PBMs) and Healthcare IT vendors with a family of on-demand solutions and services. The company's offerings are designed to simplify Medicare Part D regulatory reporting, effectively manage formulary data, and to streamline the flow of pharmacy information among healthcare constituents. Headquartered in Seattle, WA, the company's solutions are used by many leading health insurance plans and PBMs to control pharmacy benefit costs, and to effectively leverage e-Prescribing and Electronic Medical Records (EMR) initiatives.
